WORTH OF THE RIVER

The railroad strike now rapidly passing, which created such a crisis in the industrial world, was an emergency in which the value of water transportation came to the front in a very practical way. This was exemplified by the manner in which many of the larger industries of the Monongahela valley utilized the local stream to get necessary supplies with which to continue operations at their mills.

Fuel, of course, for many years, has been supplied by means of water transportation, and only during certain periods in winter, or during high water, has the service been interrupted. During the recent strike, however, the value of the river was greatly intensified, in that not one industry depending upon it for a fuel supply was hampered in this respect in any way. On the other hand, fuel supplies were kept away above normal requirements, while some of the mills were able to secure other necessary supplies by the same route. The service would have been a great deal better had the facilities for loading and unloading supplies and finished product been of a more comprehensive character, but as it was such equipment as was available had to be utilized.

However, it is safe to assume that water transportation is going to receive a great deal more attention at the hands of the industries and the people at large than ever before. The river is free to whoever would navigate it, and an immense tonnage can bet ransported at comparatively small expense. It proved a life-saver during the past few weeks, and it will undoubtedly become a greater factor than ever in our everyday life in the future.

It is costing the United States $18,000,000 daily to operate the government. During the war, when the statement was made that it was costing Great Britain $25,000,000 per day to continue operations, people wondered how that empire could stand up under the drain. Now in times of peace the United States is paying almost as much to run its government, with no signs of a reduction in the way of expense. Isn't it about time for retrenchment?

The bolsheviki government has issued a proclamation denouncing the Russian railway workers for taking too many holidays and suggesting what will be done to them if they don't stay on the job a little better. The bolsheviki have made the startling discovery that even in a socialist heaven you can't eat without working a bit once in a while.

Every time the price of sugar advances one or more cents a pound we can recall what excellent business judgment the administration used in allowing England to buy the Cuban sugar crop when the United States could have secured it at a very low figure.

Thirty-nine cars of potatoes were reported as reaching the Pittsburg markets on Monday, after the freight embargo caused by the recent strike had been lifted. Wonder if that consignmtnt will have any effect on local prices?

The New York World started in to support Herbert Hoover for President on any old ticket, but now that the gentleman has decided to be a Republican the World's covenant is seen to contain a number of straight Democratic reservations of course.

[illegible] Democrats could [illegible] whether Palmer or McAdoo was the administration choice for President, so it ran one of them [illegible] the other fourth in their primaries there being no fifth place.

Who remembers when potatoes were so cheap that the housewife never thought of paying back any that she borrowed?

Another reason why the people are for the under dog, is because the under dog isn't in a position to harm anybody, while the upper dog is.

Use the Classified Column.

EARLY TO BED, ETC., WRONG?

Or at Least, Sometimes There Is Something to Be Said on the Other Side.

There is a reverse side to every [illegible]. Early to rise and early to rise may make a man healthy, wealthy and wise, but it does not necessarily put him like a bottle with the milk of happiness.

One of the healthiest, wealthiest and presumably wisest men I know has been feeding the birds to the first peep of dawn for 40 years, writes Herbert Corey. But he has a temper that would corrode copper.

Sometimes a controlled and conservative laziness may go farther toward insuring content than the laying up of millions to be spent by the Evil [illegible]-in-law.

"I have kept myself in training all my life," said one of the most important business men in the country to me this morning. "I have to be in the pink of condition to meet the day's demands."

He began as an office boy. Today he is approximately 50,000 employees and is the actual head of a large industry. Of course he has millions. Everyone has nowadays, so that is no distinction.

He likewise has a fine, upstanding four-square son who bids fair to become as big a man as his father has been. But he has gone into another business.

"I didn't want him in mine," the father sighed. "I have risen early and gone to bed early all my life. I have been forced to go without the theater, to miss concerts, to avoid social intercourse to give a daily hour to the gym. I have been the bond slave of my business. My day starts at eight o'clock at the office and it ends at six. I have been successful but—"

Mix on those rhymed maxims. They [illegible] too merrily to be true.

LAUGHS AT ANCIENT SAYING

Here is One Retired Business Man Who Is Not Afraid of "Rusting Out."

The world seems to be full of cheerful oldsters. Hear this:

"They tell us," he says, "that if a man quits work he soon rusts out; but I don't find that to be true. I haven't done a stroke of work in four years, but I don't feel a bit rusty yet, not a bit.

"They tell us also that 'they never come back,' and I think that may be true; really I am inclined to doubt whether I could now, at seventy-five, take up my work where I laid it down, when I was seventy or thereabouts; but I don't want to take it up.

"I don't think anybody is 'entitled' to anything unless he works for it; but I think I have earned a rest. I worked hard for fifty years; in that time I did about one hundred years' work. So, as I figure it, there is still rightfully due me about 45 years of leisure.

"In other words I should have to live to be about one hundred and twenty before that alleged rust law would properly apply to me; and I hope I shall live at least that long and all the time as free from rust, as comfortable and happy, as I am at the present moment."

Hundreds of Varieties of Figs.

The fig family, Moraceae, is one of the largest in the vegetable world. Botanists have identified and described more than 600 species, mostly tropical evergreens, frequently of gigantic proportions, often climbers or epiphytic. The species Ficus carica thrives in Egypt, but is of little value; also Ficus sycomorus, the fruit of which is consumed with relish by Egyptians; Ficus roxburghii, native of lower slopes of the Himalaya mountains of northern India, produces fruit of very large size, in massive clusters, but of not very high quality; Ficus pseudocarica of northeastern Africa, produces small, dark-colored, sweet, quite palpable fruit, the capriz form of which is receiving considerable attention in California. The original home of the cultivated fig conforms quite generally to that of the olive.

Karakul, Persian lamb and Astrachan furs come from the regions about Bokhara, in Turkestan. Before the war almost all of them were dyed and treated at Leipsic, where two houses alone received 750,000 skins, with a yearly value of about $2,700,000.

The race of sheep known as Karakul is a native of Turkestan, and its special home is in the vast sandy desert plains of Bokhara. The lambs are born covered with an abundant fleece, long to their hoofs and as far as their eyes. This fleece is formed of black strands tightly curled against the skin. If the animal be killed within three days of its birth and skinned at once the fleece remains unchanged. As it grows, however, the curls untwist, and after it once has been sheared the wool grows with scarcely a trace of curl.

Why Dance Party Is "Ball."

Ball play in church by the dean and choir boys of Naples was a curious old custom during the "Feast of Fools" at Easter. The boys danced around the altar singing an antiphon. The dean had a ball which he threw to them, and they caught it while dancing.

Later at private dancing parties the dancers threw a ball to each other as to the sound of their own voices, they whirled around in sets. The pastime consisted in loosening hands in time to catch the ball. Dancing has long survived this strange game, but a dancing party is still called a ball.

Swedish Bridal Superstitions.

In Sweden the bridegroom has a great fear of trolls and sprites, and as an antidote against their power he sews into his clothes various strong-smelling herbs, such as garlic and rosemary. It is customary to fill the bride's pocket with bread, which she gives to the poor she meets on the way to the church, and so averts misfortune with the alms she bestows. On their return from church the bride and bridegroom visit their cow houses and farms that the cattle may thrive and multiply.

Philippine Subterranean River.

A subterranean river in the island of Palawan, one of the Philippines, has been explored and surveyed by two officers of the United States coast and geodetic survey, and is described in a report of that service. The river is navigable for a small boat for about two and a half miles from its mouth, the tunnel through which it passes widening in places into large chambers containing beautiful stalactites.

Photographer's Paste.

A paste which will prove permanent is made of ten parts of arrowroot, one hundred parts of water, one part gelatin, ten parts alcohol. Soak the gelatin in the water, add the arrowroot, having been previously mixed with a small quantity of water, and boil four or five minutes. When cool, add the alcohol and a few drops of carbolic acid or oil of cloves.

The "Alleged Gentleman."

This quaint notice was recently posted in a Cardiff club. "If the alleged gentleman who took three brushes from Mr. —'s color box imagines they will paint poultry without the assistance of the master hand he is gravely mistaken and therefore may as well return them to their rightful owner."—Pall Mall Gazette.

Primitive Shaving.

The Harput barber places around his customer's neck a peculiar pan with a semicircular piece cut out of one side, so that it fits partially around the neck under the chin. Water is put into the pan and the barber makes a lather with his hands and rubs it on the customer's face, usually using his hands for this purpose also.

Require Only Small Outfit.

The active Arab barbers require only a pair of scissors, a pair of clippers, and a razor for their equipment. They erect their temporary shops in the market-places by spreading some matting over a few poles. Arabs have their heads shaved, keeping the hair short so that the white skull cap over which the fez is worn will fit closely.

Why He Sought Solitude.

African Explorer (dumbfounded)—"What, you, Clarence Vere de Vere, in the heart of darkest Africa! What in the world are you doing here?" Clarence Vere de Vere—"I'm wearing the necktie Miss Darling gave me for Christmas. I promised her I would, you know!"—Puck.

Another Complaint Recorded.

A woman journalist tells us that in a collection of recent poetry there are poems of dust, rags, fish and tea, and that "woman alone has failed to fan the poetic fires." She attributes it to the fact that woman has descended from her pedestal into the "hurly burly of life."

Look Forward.

Who can see the brilliancy of character attained by individuals of our race without feeling that there is a pledge in this that what has been done already in the individual will yet be accompanied in the nation and the race?—F. W. Robertson.

There Under Compulsion.

"You ought to be ashamed to spend the best part of your life in jail," said the kind old lady to the prisoner. "Madam," replied the convict, "don't blame me for it. I assure you that I am here against my will."

Kept Busy.

"I suppose that with Jinks it was a case of marry in haste and repent at leisure." "Not exactly. His principal complaint appears to be that he has no leisure."—Buffalo Express.

"It has always been my idea," remarked the Man on the Car, "that something jostled Nature's elbow when she was pouring the seed into the watermelon."

Tongue-Twister.

Try this on your vocal organ. Say it over several times, and say it fast: "A rat ran over the roof with a lump of raw liver in his mouth."

Both Food and Medicine.

Asparagus is considered one of the healthiest of quick-growing plants used for food, and is really a medicine as well as a food.

Few Fireproof Domiciles There.

More than half the dwellings in New South Wales are built of wood.

Genius.

Genius is the art of taking infinite pains.—Carlyle.

USED AUTOMOBILES OF GUARANTEED VALUE

A demand for "the very latest" on the part of many automobile owners constantly places in our stock a line of used automobiles of exceptional value.

You can buy them at considerably below the price of new machines. At the same time they're in excellent running condition.

The fact that we have taken them in part payment on a new machine is in itself a guarantee of value. In addition each machine before being placed on our sales floor is given individual attention.

See the Used Cars we're showing now. Prices range from $300 to $1000.

When Will Prices Come Down?

No one seems to know. We must confess we do not, although we are constantly in touch with the country's foremost manufacturers and merchandising centers. Already the next cotton output has been contracted for at higher prices.

Of course there are times when the end of the season forces a clearance of overstocks or when "left-overs" must be sold at lower prices, such as our wonderful sale of Men's Suits at $13.75, $15.75, and $18.75, and our sale of Men's Soft Hats at $1.98. However, at least seven-eighths of our present stocks throughout the entire store could not be duplicated at the present time to sell for as little as they are now marked.

But We Do Know that the business of this institution is to supply the public with the highest grade merchandise at the lowest possible prices at all times regardless of the high strung conditions.

We Will Not Indulge In Explosive Sales

However, when an opportunity for obtaining high grade merchandise at low prices, but in keeping with the dependable standards of Berryman quality, is presented, we consider it our duty to put forth special effort to take advantage of such for our patrons.

We are today giving some exceptional values in our selling of COATS, SUITS and DRESSES in our Ladies' Ready-to-Wear department All we ask is for you to come in and look and compare our prices with other stores and we are sure you will take advantage of our exceptional prices.

ULTIMATUM ISSUED TO PENNSYLVANIA EMPLOYES

The striking employes of the Pennsylvania railroad who formed part of the general "outlaw" strike were directed to return to work before midnight Wednesday in an ultimatum issued by the company Tuesday night. Employes who do not come will be regarded as permanently quitting the service and efforts will be made to fill their places. Employes who report will be restored to service without prejudice and without loss of seniority, the officials said.

There was some freight moving on the P. & L. E. railroad today and some of the congestion at the Monessen mills was relieved. A meeting of the striking employes of the railroad will be held at McKeesport today, at which time some definite action looking toward calling off the strike may be taken.

A foreign miner sustained a compound fracture of one of his legs in the Charleroi coal mine this morning. The ambulance was called and he was removed to his home at 1015 Prospect avenue, where Dr. Sickman attended him.

DIRECTS THAT PASTORS' SALARIES BE RAISED

Washington presbytery of the Presbyterian church at its regular meeting held on Tuesday at Laboratory, took action directing that the salaries of all pastors of the presbytery which are under $1,500 per year be increased to that figure. The carrying out of the presbytery directions was placed in the hands of a committee which will take the question up with congregations that are now paying under that amount.

POTATO PRICES WERE LOWER IN BROWNSVILLE

On Saturday last potatoes sold in Brownsville at $5.00 per bushel, which was at least one dollar lower than they sold in Charleroi. And Brownsville freight connections and deliveries were no better than any other town in the valley.

There are 58 members of the graduating class of the Monessen high school this year, a [illegible] more than in any previous class in the history of the school. Eleven of these members are from out of town. Commencement exercises are scheduled to be held on the 7th of June.

PIONEER OF DONORA DIES IN BRIDGEPORT

William H. Farrell, one of the pioneers of Donora and who was in charge of the wire mill there for six years immediately succeeding its erection in 1900, died at his home in Bridgeport, Conn., on Sunday last. He was a brother of James A. Farrell, president of the United States Steel Corporation.

IS OLDEST MILITARY BODY

Organization of Knights of Windsor, Still in Existence, Was Founded by King Edward III.

The Military Knights of Windsor is the oldest military body in the world, having been founded by Edward III from the veterans of Crecy and Poictiers, originally having had the prefix "Sir." They are now selected by the king from the old regular officers of the British army.

The Windsor knights are picturesque old gentlemen, their uniforms consisting of a scarlet coat with gold epaulets. Their somewhat expansive waists are lashed round with a crimson sash and they have a very dandy-looking cross-belt of white leather, on which is a breastplate embossed with the garter arms, the garter sword hanging from the belt. There is a bright crimson stripe on the outside of their trousers. Their hats are the most luxuriant creation of feathers, plumes and cockades.

The duties of these old warriors are not now very exacting. At one time they were bound to attend the chapel of St. George at Windsor twice a day. Their devotional duties were later reduced to their presence at divine service only once a week and on the birthdays of certain members of the royal family. The strength of the corps at the present time is only 18, which consists of 13 knights of the upper foundation and five in the lower.

GOT RID OF MALCONTENTS

Pilgrim Fathers Had a Highly Effective Way of Dealing With the Colony's Undesirables.

Deportation of "undesirables" is not an innovation in this country. The Pilgrim Fathers, confronted with the problem of dealing with malcontents among them, shipped the disgruntled ones overseas. Governor Bradford's story of the Plymouth colony shows how things were done in those days.

According to Bradford's story the "reds" in the Plymouth colony were represented by John Liford and John Oldham, who conspired together, both against the church and the government of the colony, endeavoring to entice others with them. Oldham refused duty when called upon by Captain Standish, whereupon it was determined to place Oldham and Liford on trial, all the members of the colony being present. They were convicted, the court ordering them expelled from the colony, both being deported ultimately.

Oldham came once again to the colony and created a serious breach of the peace, whereupon "they committed him till he was tamer, and then appointed a guard of musketeers which he was to pass through, and everyone was ordered to give him a thump on ye birch, with ye butt end of his musket and then was conveyed to ye waterside, where a boat was ready to carry him away. Then they bid him goe and mende his maners."

Eucalyptus Fuel.

Eucalyptus trees planted on tropical mountain sides would produce fuel at the rate of 20 tons, dry weight (60 pounds to the cubic foot), per acre annually. This in perpetuity, the plantations when cut reproducing themselves without further expense.

Such is the declaration of a scientist who says that by this means the sun's heat in hot latitudes can be economically stored, the dry eucalypt timber being heavier than coal and possessing more heating power, bulk for bulk.

An acre of eucalypts in the tropics, he asserts, would produce the equivalent of at least twenty tons of coal per annum, the only requirements being powerful sunshine and heavy rainfall to insure rapid growth. So, with such a possible resource available, why worry about the threatened exhaustion of the coal mines?—Exchange.

New York university has just come into possession of an original photograph of the first janitor of that institution, equipped with the gong and stick with which he called the students to classes, says the New York Evening Sun.

When the university was founded, January 8, 1830, and students met in the original building back of the city hall, there was, of course, no electric bell ringing system. The responsibility of attendance at recitation was shunted onto the janitor.

Promptly on the hour he would proceed through the corridors armed with a huge metal gong in one hand and the gong stick in the other. Pausing outside the classrooms, he would beat his tattoo until the professor ceased his lecture and the students moved on to the next room on their program.

Friendship.

The capacity for making friends, the ability to win others to us, to fasten them to our souls with hooks of steel, to surround ourselves with those who are loyal and true, is a wonderful power. Some possess it in a marvelous degree; they make friends without effort. But although comparatively few are thus gifted it is possible for every one to develop the power in greater or less degree.

"Only be admonished," as Emerson says, "not to strike leagues of friendship with cheap persons where no friendships can be. Our impatience betrays us into rash and foolish alliances."—Orison Swett Marden, in Chicago Daily News.

HIS VAST WEALTH A CURSE

Sudden Possession of Immense Riches Too Much for Mental Stability of Mexican Indian.

Confined in an asylum for the insane in Mexico is a millionaire who never enjoyed a cent of his fortune, though for a time he had it in his possession in cash. The amazing story of this man to whom wealth proved a curse, is told by G. F. Weeks in the Wide World Magazine.

Juvencio Robles, a full-blooded Mexican Indian, was born in a palm leaf hut in the little town of Panuco, inland from Tampico. From earliest childhood he was forced to work, his wages amounting to less than 50 cents a week. When arrived at manhood he married and from then on turned his earnings over to his wife as banker. For several years he led a colorless existence, scrimping along day by day and saving little. Then one day some friends inveigled him into a card game. Fortune was with him and he won what was a great sum to them, $18. This he invested in a small butcher shop. The market thrived and a few years later he was able to buy some land on which to fatten cattle. When oil was discovered at Tampico his ranch was in the heart of the field. He was offered 1,000,000 pesos and yearly royalties for the oil rights on his land. This he accepted, but demanded payment in gold.

The money was delivered to him as he requested, and from then on his sole interest in life consisted in guarding his treasure. He slept on a box filled with coins and refused to eat for fear his family would poison him. At last his mania reached such a stage that that it was necessary to have him confined.

RAIL LINE CROSSES OCEAN

Remarkable Trip That Is Taken by Travelers on Their Way to Key West, Florida.

Thousands of Americans at the vacation time of the year take the only ocean trip which can be made on a railroad train, writes "Niksah" in the Chicago News. They go to Key West by way of the line which runs through the Atlantic ocean on an embankment built from one to another of those tiny islands known as the Florida keys.

As you ride along this remarkable railroad, you look out the window and down into the clear shallow water and see great schools of fish playing near the surface, and deeper down you can glimpse now and then the shadowy form of a small shark. On either side of you reaches away to the horizon a vast expanse of brilliant blue water, dotted with islands, which vary in size from a fraction of an acre, to perhaps a quarter of a square mile. They are low and flat and covered with low-growing mangroves, and other swamp plants. Here and there a group of coconuts or royal palms lifts a feathery silhouette. Occasionally a little shack is glimpsed, and a few sails are seen in the distance, but for the most part the region is a wilderness of blue water, white sand and low-growing jungle—a wilderness that you would love to explore in a small boat.

Of life you see little. Now and then white flocks of ibises rise from the islands; a tree duck spatters clumsily away from the train, or a great blue heron trails his legs in lonely dignity across the sky. For the most part silence and sunlight own the place.

Chinese Mail Up to Date.

The Chinese mail bag is now a popular institution throughout the whole of the ancient empire. Established 23 years ago, active development of the department only began after the Boxer revolution. In 1918 6,000 miles of overland routes were added to the service. And now a new continuous overland courier route of roughly 3,375 miles, the longest in the world, connects Kalgan by way of Mongolia with Tihwafu, capital of the Sinkiank (Chinese Turkestan) following in part the old trade routes from China to Persia. The townspeople of a flourishing manufacturing district were so enraged recently by the delay of mail that they appealed to the court, and the party responsible was ordered to be decapitated if he offended again. Probably they had missed their copies of the Family Herald!

Gene Stratton Porter, age two and one-half, daughter of Dr. E. A. Porter, Hartsville, Ind., has difficulty finding proper words to express herself, as most children at that age do. Personal pronouns are particularly difficult.

One of her friends asked Gene to go home with her recently.

"I want to go home with Hazel, mother, can me? I want to go down there with she."

One morning she came downstairs with her shoes on the wrong feet and looking at them with a puzzled expression said: "Mother, me got my shoes on wrong side out."—Indianapolis News.

Vessel Too Big for Docks.

America, it seems, with all her progress in shipbuilding, has no dock on the Atlantic coast suitable for repairing a vessel like the Leviathan or the Imperator, says Shipping. When the Leviathan needed overhauling, she had to be sent to Liverpool to the big Gladstone dock. Even there it was necessary to wait for the new and the full moon to dock and undock her, as the highest tide was required to "boat her over the sill." The dock at Norfolk, Va., it seems, is big enough to float the Leviathan, but the channel leading to it will not permit her passage.

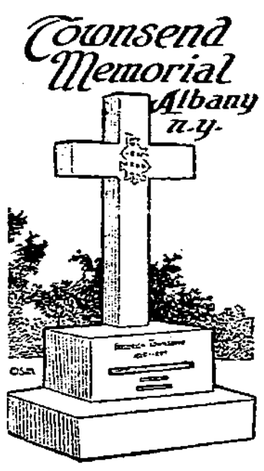
A STRIKE AT THE GRANITE QUARRIES, FREIGHT EMBARGO

We have the largtst and most complete line of monumental work in the valley, which was purchased and will be sold at the old rate of prices.

If you contemplate the purchase of a MEMORIAL during the present year, you should see us before this stock is exhausted.

"QUALITY AND SUPERIOR SERVICE"—OUR MOTTO



Protecting Personal Property

Don't make it easy for the sneak thief by keeping valued articles carelessly about the home or office.

The safe deposit vault of this institution is proof against all of his cunning and skill.

A small box and a trifling sum will give your valuables the best of protection and you peace of mind.

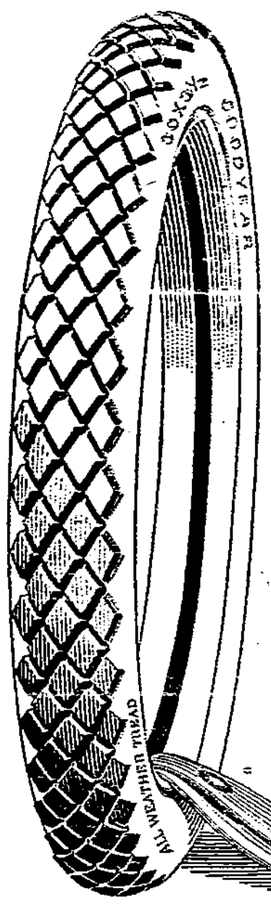
Tires for the Smaller Cars—
Built With Goodyear Methods



In using its immense resources and inventive skill to build the highest relative value possible into tires, this company has never made its work more effective than in Goodyear Tires for the smaller cars.

These have the full advantage of Goodyear competence and care, plus the modern facilities of the factory we are devoting to the world's largest production of 30x3-, 30x3½-, and 31x4-inch sizes.

The sum of this extraordinary effort is available to you, as the owner of a Ford, Chevrolet, Dort, Maxwell, or other car using these sizes, at the nearest Goodyear Service Station Dealer's place of business.

Go to this Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He is ready to supply you.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread $23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread $21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size *in water-proof bag* $4.50

GOODYEAR

Tires That Wear Longer

and give owners of smaller cars the minimum of tire trouble are worthy of tremendous popularity. That Goodyear produces 20,000 Fabric Clincher Tires a day, sizes 30x3, 30x3½, and 31x4, in the All Weather and new Anti-Skid Tread, is no mystery when one considers the dominating merits of Goodyears.

We not only have the tires, but we also offer a service that will weld your business to us once you are familiar with it.

Other sizes and types in stock.

Barbers Act as Coroners.

In Egypt a large proportion of the barbers are state functionaries. According to an edict issued by Ibrahim Pasha in 1848, every village barber was ordered, when death occurred in his district, to make a careful examination of the corpse, and report to the authorities any death occurring through epidemic, disease or foul play. Severe penalties were imposed for any neglect of this duty, and a fee of 5 cents was paid for each death registered. Five years ago the system of payment by fees was abolished and each village barber now draws from the government a fixed salary for his services.

Making a Stove Look New.

An old stove can be made to look like new by, first of all, washing it with hot soap suds containing an alkali to cut the grease, etc. Mix with any good stove blacking a teaspoon of turpentine. Apply to stove, and when nearly dry polish in the usual way. The turpentine keeps the blacking from flying. Nickel-work on the stoves can be cleaned by applying wood ashes and vinegar mixed to a paste. Apply, and rub or dust. Zinc: Wash clean, then rub with cloth soaked with kerosene.

Little as selenium is known outside the scientific world it is not a rare element. Rather it is widely distributed. It is a permanent ingredient of sulphur, and as such was known to the alchemists of ancient times, although they did not observe its character as an element. From the chemical standpoint it is classed as a metaloid.—Harper's Weekly.

Secret of Perfect Mortar Lost.

The man who could disinter the buried recipe for Roman mortar would be bowed down to and worshiped by the builders of the present day. How they made it is a profound secret, and bids fair to remain so. The mortar is as firm now as it was two thousand years ago; it has calmly scoffed at the ravages of time and weather.

Point for Theologists.

When you come to think of it, the unbelievableness of death to the average person, in view of our daily acquaintance with that great fact, is one of the queer quirks of the human brain. Or may it not be something bigger and better—a proof of our instinctive realization of our own immortality?—Exchange.

Bashful.

A buxom farm lass was recently called as a witness in a case in a Yorkshire (Eng.) county court. The girl happened to mention that her sweetheart knew something about the matter. "Oh," said the judge, "then I think we had better call him to court!" The girl blushed furiously. "It won't be any good, sir," she protested. "Ah'm fair put to it to get him to court when we're alone, an Ah'm sure he won't do it before all you gentlemen!"

Seek Appreciation of Others.

Mark Twain once said: "Be good, and you'll be lonesome." Nevertheless, most of us try in our own fashion to achieve that brand of loneliness. It is a characteristic of the average individual to "put the best foot forward." We wish to deserve well of our associates, and the desire to be, or at least appear to be, what others expect us to be is an underlying fact of civilization.

Wild Rice a Valuable Food.

Wild rice, according to a consular report, is "the most nutritious cereal in America." The plant has a long black grain, and hence is sometimes called black rice. It has been used from time immemorial by certain Indian tribes as their principal food. In recent years it has come into the white man's markets, selling for considerably more than ordinary white rice.

Mule Starting.

Ancient methods for inducing momentum were as varied as they were usually ineffective—watering the mule to change his mood, putting a carrot on a pole just beyond his reach, causing him to sneeze with pepper, twisting his tail (the latter seldom tried, albeit, owing to the high voltage of his heels), building a fire under him. A modern method is to borrow an automobile, 60 horsepower, hitch a chain to the balky mules with their load and yank them up the street in a reluctant but lively canter.—Jackson News.

Wrote His "Leaders" at Home.

Alfred Austin, while British poet laureate, was lucky in his work as a journalist. For many years he did his daily task at home with the assistance of a telegraph wire run into his study sixty miles from the London Standard office. His instructions came over the wire and his editorial article went to town by train. Sometimes he would telegraph the whole article.

GO NO FARTHER

The Evidence is at Your Door.

Charleroi proof is what you want and the statement of this highly respected resident will banish all doubt: Mrs. Geo. Arnold, 821 McKean Ave., Charleroi, says: "The first symptom of kidney trouble I had was a dull, heavy aches across my back. I had a run down, tired-out feeling that made me feel of no account. Every time I bent over it almost took my breath away to straighten up again, and then I would become dizzy and black specks would appear before my eyes. My kidneys acted irregularly which caused me a lot of annoyance, too. I was told to try Doan's Kidney Pills so I got a supply and after taking a few doses my back felt strong again. I continued the use of Doan's until I was cured of my trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Arnold had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

NUXATED IRON
A DRIVING FORCE
BEHIND KEEN SUCCESSFUL MEN AND WOMEN

When you think of the successful men and women you know—people who are doing things worth while—you will find that they possess force, vim and energy—the kind that simply brim over when the blood is filled with iron. Nuxated Iron by enriching the blood and creating new red blood cells, strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed force and energy into the whole system. Three million people use it annually as a tonic, strength and blood-builder

MAKE THIS TEST

See how long you can work or how far you can walk with out becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form.

Sold by Piper Bros. and all other Drug Stores.

VOLUME XX—NO 271 CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA. WEDNESDAY, APRIL 21, 1920 TWO CENTS

LICENSE COURT WAS LACKING THE USUAL "PEP" THIS YEAR

New Applicants and No Objections Filed Against Any

QUESTION OF LAW RESERVED

The annual session of the Washington county license court was held on Tuesday at Washington, but there was no more "kick" in the proceedings than in the beverage which prospective license holders wish to sell. The session was a very quiet one, and outside of those direc[illegible]ly interested in the proceedings of the court, there were very few present.

Judge J. A. McIlvaine and Judge James I. Brownson were on the bench. There were no remonstrances to any of the applicants and the only question raised was that by the trustees of the Plummer Temperance ance Fund, through John C. Judson attorney. Tht point raised is that the court is without jurisdiction under the present existing United States laws to grant any license to sell liquors. It is contended the license acts of 1887 and 1907 are repealed by reason of the 18th amendment. The objection was submitted without argument and briefs will be filed with the court in a few days. The objection was submitted without argument and briefs will be filed with the court in a few days. The court is not expected to hand down its decision on the objections raised and the applicants heard for several days yet.

Of theformer holders of license in the county only 18 remained who desired to continue in the business. In addition to these 18, seven others desired the privilege of trading in the "kickless" beverage. The 18 old applicants were disposed of in bulk and without much ceremony. They were all questioned as to whether or not since January 16 they had observed the provisions of the prohibition amendment.

The new applicants included Godfrew Artz, of the Hotel Wellington, Anthony Murphy, who conducts a restaurant at the corner of Eighth and McKean, as well as Andrew Chacko, now in the butcher business but who seeks to have the right to sell "near beer" at a restaurant which he proposes to open shortly on McKean avenue.

Old applicants from Charleroi are the Independent Brewing company, W. H. Zellers, George L. West, George M. Fellows and Joseph Prise.

Following license court there was submitted to the court for a decision the petition of Milo Davidson and Carrie Klein of Marianna for a return to them of a portion of the license fee paid a year ago when granted a license. The sum involved is $200, which was distributed in proportion to the county the state and the borough of Marianna. These hotel owners, when the war time dry provision became effective, closed their bar and have not since opened. They claim the balance of the sum paid for the license should be returned to them for the time in which it was not effective.

NO NEW ROADS IN ALLEGHENY COUNTY

The Commissioners of Allegheny county on Monday listened to three delegations who wanted roads constructed in their sections. All were told the commissioners, lacking funds, would build no new roads this year. The commissioners have before them requests for about 120 roads of a total of about 250 miles in length. These cannot be constructed because of the heavy expense to be incurred in connection with the rebuilding of the Allegheny river bridges in the Pittsburg harbor.

HEAVY SALES OF JAMAICA GINGER

The growing use of Jamica ginger known as "jakey," is causing considerable apprehension in some parts of the country, and serious effects are anticipated by physicians because of the large quantities now being consumed of this liquid as a beverage.

According to Chief of Police John C Eckert, of Uniontown, Jamica ginger has ceased to be a fad; it is rapidly becoming a habit and there are many who have become addicted to combined hellfire and alcohol who will ultimately pay the penalty. Chief Eckert was led to make these remarks a few days ago when he observed a number of "jakey" victims being led away to the lockup, being almost helpless to care for themselves. The enforced idleness of the past week in which hundreds of men in the coke region were involved gave a lot of the workers an opportunity to indulge their taste for this "hot stuff," and they appeared to take advantage of the situation. The result was somewhat alarming and the consumption of the high powered gingerized grain alcohol went on in larger quantities than ever.

"There is no way to stop the promiscuous use of Jamica ginger as a drink. The law prescribes that the liquid must be sold only as a medicine and not as a beverage. The number of men, and some women, too, who need this form of medical attention lately is something marvelous," said the Chief.

"The reckoning, however, will come later, according to best medical authorities, when the irritation which the ginger produces in the intestines commences to take the form of cancer of the bowels and other forms of disease. Then is the time when users of 'jakey' will pay the penalty."

Banking Institutions To Merge in Monongahela City

A bank merger of more than usual importance is reported from Monongahela, in which Alexander & Co., one of the oldest, if not the oldest private banks in Pennsylvania, will take over the Monongahela City Trust Company, the consolidation to be effected within a very short time. A new company is to be formed to conduct the banking business of the two institutions in the future and will be known as the Alexander Trust company, of which Senator Joseph A. Herron and William H. Alexander will be the sole owners. According to report these two gentlemen have bought out all of the stockholders and by consolidating the two institutions will have combined resources of over $3,000,000. The Alexander bank building at the corner of Main and Third streets will be remodeled to meet the needs of the new company, which will require a large amount of additional space. It is likely thee ntire first floor of the building will be devoted to banking purposes, and under the new arrangement the Alexander Trust Company will be one of the leading financial institutions of the valley.

DONORA TO HAVE A BIG OPENING DAY

Donora is preparing to open the local baseball season in that town Monday evening, May 3rd. Six baseball clubs will make up the local Industrial league, and already 140 players are under contract for the coming season. Each team is allowed 25 players until the15th of May, after which time they will be compelled to cut down to 15 players each. At the opening festivities there will be a parade, in which members of the Donora Community Service, six uniformed base ball teams, and the American Steel and Wire band will take part. Arrangements are being made to have Honus Wagner of Pittsburg present, and he will play a portion of the game with one of the contesting teams. Donora anticipates a big success with the league this year, as profiting by the experiences of last year it is believed regulations will be better observed. The games are played at Americo park, at the north end of the borough line, the grounds being located between the street car and railroad tracks.

RE-OPENING K. OF C. SOCIAL PARLORS

Thursday evening at 7:30 o'clock Charleroi Council, No. 950 K of C., will formally open their social parlors which have just been remodeled and which are located in the basement of St. Jerome's church, on Seventh street. Quite a program will be presented to those who attend among which will be found cards and music, while a splendid lunch will add attractiveness to the affair. The Council has made some wonderful changes in the parlors and elaborate decorations will add to the beauty of the occasion.

Most everybody prefers open handed generosity to even-handed justice.

COMMUNITIES TO JOIN IN PROTEST

A representative meeting of all communities in the county interested will be held at the court house in Washington, Thursday afternoon, beginning at one o'clock, at which time the proposition of uniting the protests of the various communities with reference to the proposed changes in the rates of the Bell Telephone company.

This meeting is called because it is believed by having the various communities meet and discuss the problem thoroughly, better results will be attained. Preparation and presentation of the protests to Harrisburg will be particularly discussed. By uniform and consolidated action it is, also, pointed out that the expense of each section could be reduced, especially if a representative were sent to Harrisburg. Action of this kind it is believed would carry more weight.

VOCATIONAL SCHOOL DEDICATION FRIDAY

The dedication of the new Centerville vocational school will be held on Friday April 23. The afternoon meeting at 1:30 o'clock will be presided over by Supervising Principal H. L. Swartz. Addresses will be made by County Superintendent L. R. Crumrine, J. K. Bowman, superintendent of agriculture, and by George Becht first assistant superintendent of public instruction. At the evening meeting the address will be made by Dr. John A. Entz, principal of the California Normal, Attorney Rufus S. Marriner of Washington, and Miss L. M. Hartman of the home making department of the school.

Dr. W. J. Waugh of the State Sanitary Live Stock Board, Pittsburg, and J. B. McCune, health officer of Donora, were callers in town this morning.

REPUBLICANS AGREE ON SOLDIERS' BONUS BILL

Republican leaders in the House at Washington on Monday agreed to present a soldier relief measure about May 1. The bill is to provide for a cash compensation plan, together with the alternative offers of priority in land settlement, home building aid and extension of vocational training. It is proposed to begin cash payments on the first of January, 1921, continuing in quarterly installments. A tax on gross sales, it was said will probably to the plan adopted to raise necessary revenues.

MANY TOWNS ARE FILING PROTESTS

Donora has prepared its protest on the increase of rates and restriction of service against the Bell Telephone company with the Public Service Commission. The Donora Community Service is in charge of the proceedings. The committee appointed by the borough council of Monessen is at work preparing its protest, which will be filed some time this month. Monongahela is also working on its protest under direction of the city council, and it will be filed in a short time. A special committee composed of the Mayor, city solicitor and city controller have the matter in charge.

PROSPECTS GOOD FOR FRUIT CROP

Indications at the present time are for a good fruit crop in Washington county, in spite of rumors afloat that fruit had already been destroyed by heavy frosts.

"Fruit has not been harmed in any of the orchards I have visited," said County Agriculturist J. M. McKee. Continuing, he said that peach trees and buds were in a most promising condition. Apples did not yield well last year and indications are that a much better crop will be harvested this year. Farmers are taking a more general interest in spraying, the most efficient and economical method of combatting the pests affecting fruit trees of all kinds.

Mrs. Andrew Ebenoch died at her home in Belle Vernon on Monday evening at 11'55 o'clock aged 66 years. Funeral Thursday morning at 10 o'clock in St. Sebastian church interment in Belle Vernon cemetery. She is survived by her husband, three daughters and one son.

Endeavor Union Would Like To Meet in Some Town In Valley

A ONE-DAY SESSION IN JUNE

The Executive Committee of the Washington county Christian Endeavor Union met last Sunday in the Third Presbyterian church, Washington, to discuss the work of the union.

The principal topic at this time was the annual convention which is always held in June.

It was decided to hold a one day convention instead of a two day session such as was customary a few years ago.

As yet the place to hold the convention has not been selected and the officers would be glad to hear from any church or society desiring to entertain the convention.

Last year it was held at Prosperity, the year previous in Washington while Canonsburg was host to the meeting of 1917.

The river districts have not been visited for some years so it is probable that some of the strong societies of that section of our county will be desirous of the honor this year.

The president of the County Union, Willard Andrew, formerly of Prosperity, has resigned on account of a change of residence and Miss Oro Work of Washington has been elected to fill his place.

Miss Work has had considerable experience in the union work, having served as secretary of the county union for the past four years.

When the former president and vice president were called to the service of our country Miss Work conducted the convention of 1918 in a very acceptable manner, besides carrying her own work as secretary.

The other officers of the Union and heads of committees areas follows:

First Vice President, Hiram Van Cleve, Bethel church

Second Vice President, Elmer Selby, Claysville.

Recording Secretary, Miss Mabel Houghland, Washington.

Corresponding Secretary Miss Bella Geho, Charleroi.

Treasurer, Miss Melverne Iams, Donora.

Lookout Committee, James P. Houston, Canonsburg.

Finance Committee, Miss Melverne Iams, Donora.

Quiet Hour and Good Literature, Miss Helen Holmes, Claysville.

Junior and Intermediate, Mrs. Albert Carle, Washington.

Missionary and Floating, Mrs. Ellis Allman, Charleroi.

Press, Miss Margaret Forgie, Washington.

The Ladies of A. O. H. Divsion No. 2 will hold a dance in Mights hall, Thursday evening April 29. 271t1
